

EVENING WINTER SCENE

Video on Facebook - December 8 | 2:00pm

facebook.com/andersonlibrarysc

Materials Needed

- Empty snack box
- Thumbtack
- Scotch (cellophane) tape
- Scissors
- Glue
- Pencil
- Plastic or styrofoam plate
to hold paint
- Cup of water for paintbrush
- Newspaper

Materials Supplied

- Blue craft (tempera) paint
- Paintbrush
- Wooden skewer
- LED string lights (battery lasts 72 hours and is replaceable. Do not leave on unattended)
- White cardstock

1. Carefully take apart your empty snack box without ripping
2. Mark with pencil where you want to place your stars in sky on plain side (can make a constellation) and poke holes with thumbtack. Enlarge holes with skewer
3. Paint the plain side of the cardboard snack box with blue paint (this will be your evening sky) and let dry
4. Turn over box and line up LED lights with holes and tape down wires
5. Measure about a quarter to a third of the way up of the box and use that measurement to draw and cut out the land section from a piece of white cardstock.
6. Draw and cut out a few fir trees of various sizes from remaining white cardstock.
7. (Optional for 3D effect) Cut out one or two small rectangles, fold four times each and tape ends together.
8. Tape 3D rectangles to the back of one or two trees and affix to box using glue or tape, to make your tree(s) pop out.
9. Reassemble box and glue two sides together threading light string switch through one side. Alternatively, cut hole in back to access the switch.

YOU NOW HAVE A LIGHT UP EVENING WINTER SCENE!

LIGHT UP EVENING WINTER SCENE

Add tint to trees with colored pencils or leave white.
Used constellation Draco in example.
